A series with **presence**

EFAPEL presents the LOGUS plus, a new series that combines design, robustness and functionality — values that are part of the brand's DNA.

With a modern look and robust construction, it integrates the **mec21** system for a simple and fast installation.

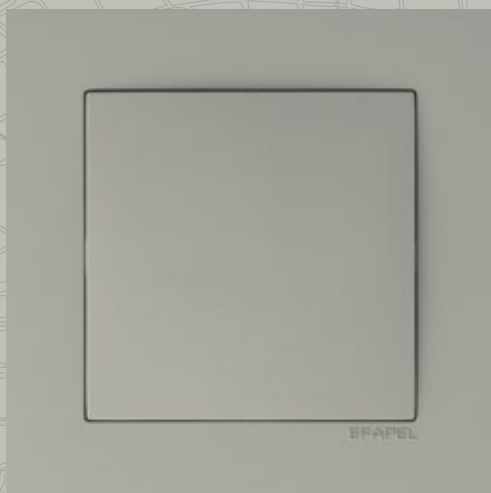

LOGUS_{plus}

Design that works.
Simplicity that installs itself.

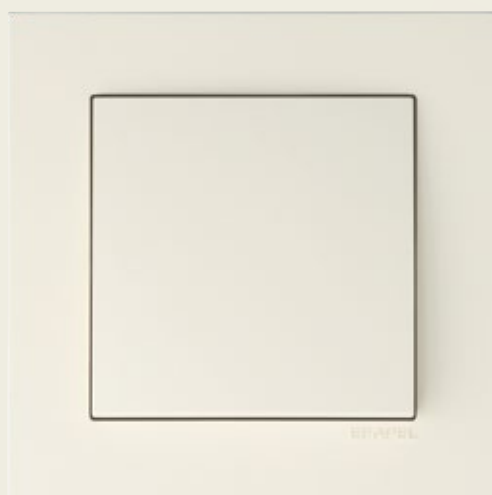

New series,
the same system.

The LOGUS plus is available in five finishes.

The **Basalt** and **Gardenia** colours enrich EFAPEL's colour palette with a new natural dimension. Inspired by nature, they embrace current design trends while reflecting the growing preference for authentic and natural materials.

Frames and configurations

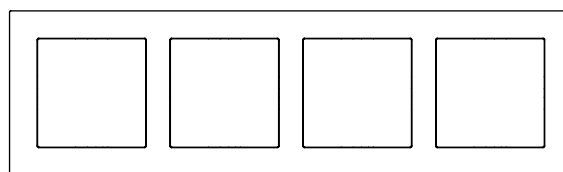

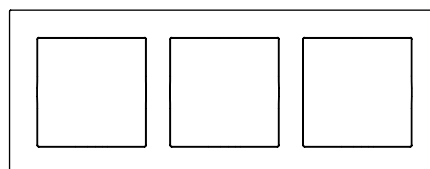

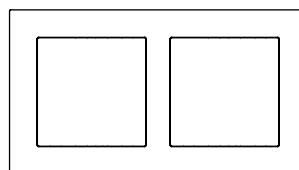

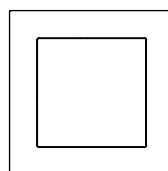

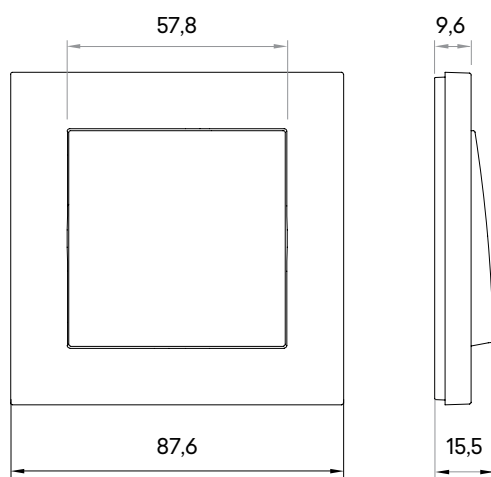

Each configuration can be customised
by combining switches, sockets, and the
remaining functions of the **mec21 system**.

Design

The LOGUS plus is defined by a square frame with flat surfaces, a symmetrical geometry and clear visual reading.

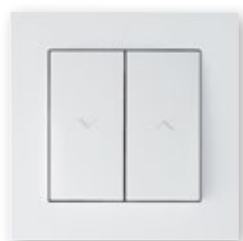

A contemporary design with a deliberate physical presence.

Single at four-gang

Single, double, triple and four-gang frame, with horizontal and vertical mounting.

New series with all the
functions of the **mec21 system**

Each configuration offers a complete range of functions to meet the requirements of modern electrical installations.

165 functions

surrounding sound

The Jazz+ Solo solution allows a quick and easy installation, without the need for a dedicated central unit or power supply. With just a control unit and loudspeakers, you can enjoy your favourite music via Bluetooth or tune in to FM radio stations.

(For more solutions, please refer to our Surrounding Sound catalogue.)
